CUSTOMS DEPARTMENT:

RE: Changes to Customs Tariff on Vehicles

The Public is hereby notified that to date, there has been no changes to the Customs Tariff in relation to the importation of Vehicles into the Turks and Caicos Islands.

The Government has in fact made a policy decision to review this aspect of the Customs Tariff, with a view to restricting the age limit of vehicles, and reducing the duty rates on vehicle imports across the board.

Very shortly a Consultant will be retained do conduct this review. Once a decision is reached and Legislation amended, all stakeholders and the Public will be notified in advance, so as to facilitate an easy transition.
